José Rizo's MONGORAMA

(Saungu Records SR003)

CD Review: From [Website Here](#)

It's a shame the [Latin Grammy](#) disappeared. Jose Rizo's *Mongorama* would have been a shoo-in. This tribute to conguero [Mongo Santamaria](#) has all the hypnotic energy and seductive punch of Mongo's 1960s albums. The nonet is made up of [Grammy winners](#), and special guests include [Hubert Laws](#) and [Poncho Sanchez](#). The album was produced by Rizo and Oscar Hernandez, with arrangements by Hernandez and [Francisco Torres](#). Dig *Asi Es La Vida* and *Que Maravilloso*. You'll find this one at [iTunes](#) and [here](#).
